

FLOWBOX

Touch the High-End Design and Functionality

Perfect combination of minimalist design, premium appearance and robust structure...

SOFT-CLOSE

FlowBox Drawer System's state-of-the-art technology and Soft-Close mechanism, allow end user to utilize the drawer easily & softly.

PUSH-OPEN

FlowBox Push-Open system provides a very smooth opening function to drawers and adds a touch of innovation...

PUSH-OPEN SOFT-CLOSE

FlowBox, thanks to the minimal pull-out force feature, requires just a small touch to open a drawer smoothly. The impeccable Soft-Close system of **FlowBox** ensures that the drawers close perfectly. SAMET New Generation Drawer Systems FlowBox combines the two most superior functions such as Push-Open and Soft-Close for perfect motion.

A close-up, low-angle shot of a mechanical assembly, likely a sliding door or window mechanism. The image is dominated by metallic surfaces in shades of grey and silver, with a prominent red component on the left. A large, semi-transparent red arrow is overlaid on the red component, pointing to the right, indicating the direction of movement. The background is a soft, out-of-focus grey, suggesting an indoor setting. The overall aesthetic is clean, modern, and industrial.

PERFECT SYNCHRONIZATION FOR SILENT MOVEMENT

FlowBox's balanced movement features and state-of-the-art technology with its special synchronization system enable the slide to run over with perfect silence.

CHOOSE YOUR OWN
COLOUR

EXCLUSIVE COLOURS

FlowBox completes the new generation of furniture with its trendy colours to create a perfect total look.

SPECIAL COLOURS

The generous range of side colour options maximises the exclusivity of **FlowBox**.

4 DIFFERENT SIDE HEIGHTS

FlowBox allow the creation of comfort and functionality.

H: 106 Side Panel
[Inner Height: 58]

H: 192 Side Panel
[Inner Height: 144]

H: 138 Side Panel
[Inner Height: 90]

[Inner Height: 208]

3D ADJUSTMENT

FlowBox's three-dimensional-adjustment mechanism with its high tolerance level was designed with consideration to both-users' and manufacturers' convenience.

TILT

The distinguished tilt adjustment mechanism of **FlowBox** ensures that the drawers are perfectly and easily adjusted on the front panel.

→ Tilt ←

HEIGHT & SIDE

The three-dimensional adjustment system provides precise gap alignment. Height and side adjustments are quick and easy with a special mechanism assembled inside the drawer.
