

Dimensiones de cajón y armario

\*Para la aplicación de montaje inferior sin bastidor, la altura mínima del centro del tornillo debe ser (\*) mín. de 42 mm (1-21/32\"/>

Preparación de la parte posterior del cajón

X = 10 - 13mm  
X = (13/32\"/>

Soporte de montaje trasero

Nota: Utilice un mínimo de tres tornillos por soporte.

Especificaciones de montaje de corredera

Compatible con soportes de montaje traseros de metal

Longitud de cajón	Profundidad interior del armario con fijación trasera		Longitud de corredera (LN)	Ubicaciones de tornillos para armarios sin bastidor	
	Máx.	Mín.		A	B
229 (9")	310 (12-7/32")	270 (10-5/8")	261 (10-9/32")	133 (5-7/32")	229 (9")
