SMARTFULL
## Undermount Slide Systems

How many different ways could there be to open a SmartFull drawer ?

Soft Close Version

The new integrated soft close system ensures gentle and quiet closing. Thanks to adaptive soft close technology, drawers can be closed softly with same smooth closing effect even if you change the load inside the drawer.

Push - Open Version

SmartFull Drawer Systems "Push Open" function simplifies the use of non-handle drawers with a single touch movement.

Push - Open Soft Close Version

Now the SmartFull generation is integrated into the Soft-Close and Push-Open system at the same time. With this feature the drawer is upgraded to a very high quality and sophisticated design for the interior design world.

Smooth and Silent Movement

SmartFull is engineered to be functional for any drawers.
SmartFull extension allows you freedom in furniture design such as Day & Night furniture's, bathroom cabinet and also kitchen applications.

Due to special production method with low tolerances, SmartFull operates smooth and effortlessly all the time.

Nonstop Synchronization, provided by silicone wheel, ensures smooth and slient running action with lifetime durability.
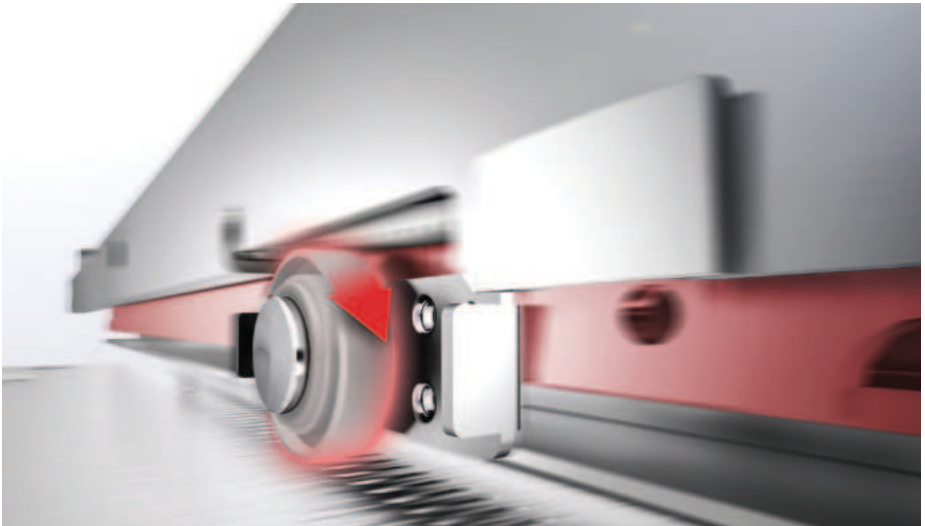

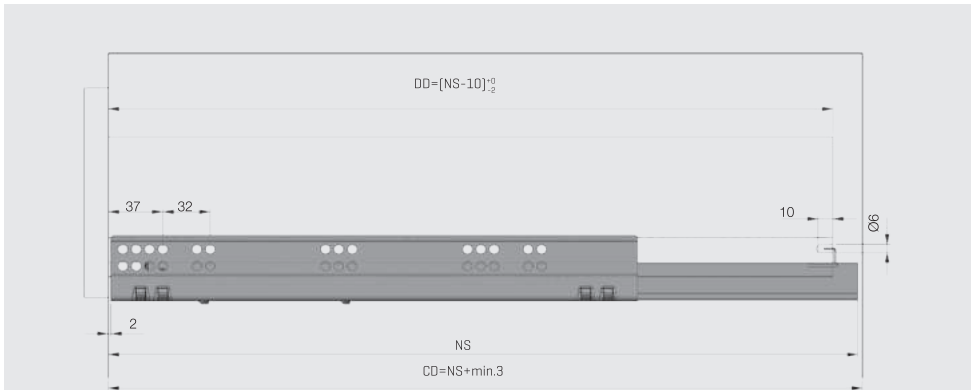

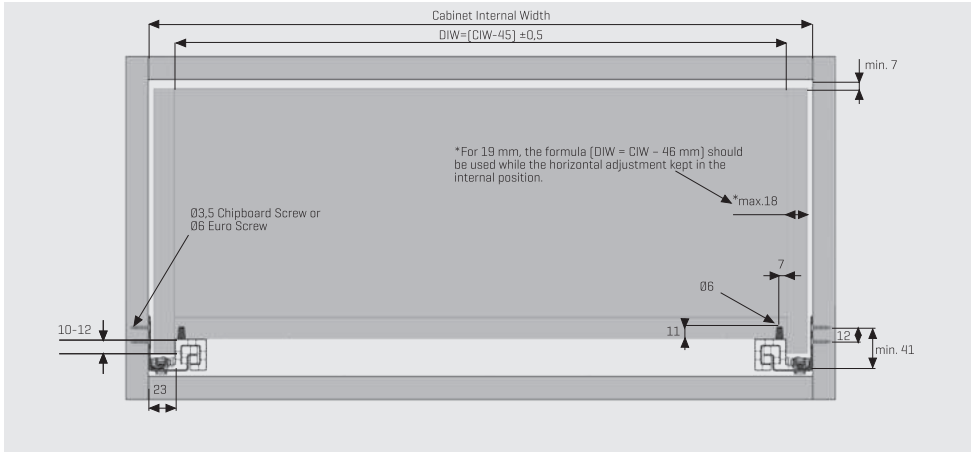

Lock-Fix and Pin-Fix Mechanism Options

Lock-Fix mechanism was especially designed for the quick and flexible installation process of SmartFull Drawer Systems. "Pin-Fix System" was particulary developed for industrial furniture producers to ensure ease and safety during installation.

With wide drawer size alternatives within a range of 250 mm to 600 mm, different requirements can be met, which ensures different solutions during furniture production. The possibility to lock as tight as desired ensures safety during drawer utilization.
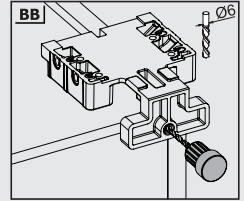

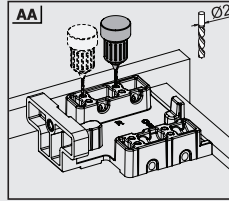

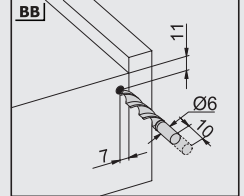

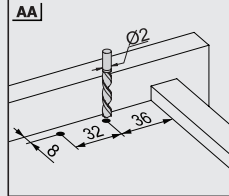

Drawer and Cabinet Dimensions S-C

Cabinet Internal Width

DIW=[CIW-45] ±0,5

min. 7

*For 19 mm, the formula [DIW = CIW – 46 mm] should be used while the horizontal adjustment kept in the internal position.
